PRICING - SESSIONS

Our portrait packages consist of either a 30-minute or 1-hour session in a location of your choosing.* We believe in giving you options, so once the session is complete, you will then preview your session photos and choose your prints, enlargements, adjustments, and many other options. All photos are shot digitally and printed on high-quality Kodak Endura paper in a matte finish 4x6. In addition, all selections are re-touched to remove any blemishes or imperfections.

* Travel fees may apply.
